### **Supporting Independent Artist in Covid-19 Pandemic worldwide**

**Many artists are self-employed, Covid-19 pandemic has made these talents unable to work, there is not enough help for them in this difficult time, and something has to be done. As an art charity in the UK, no barking aRt aims to support independent artists worldwide through this pandemic period.**

Here is how the initiative, A World Without End works.

Theme: A World Without End

#### **Brief**

Befitting the united mood globally in this pandemic crisis, A World Without End is opened to artist's creative interpretation through one's chosen medium.

Each artist can submit up to 3 artworks. Free of charge, no submission fee.

Our selection for the exhibition will base on the originality, quality, concept, depth of the work and the gender/ethnicity equality. The selected artists will be presented in both events: the main exhibition, and Studio Sale Room.
